Rules for Final Examinations

AND ADMISSION TO THE SENIOR CLASS IN THE ELEMENTARY COURSE.

1. Admission to the Senior class as well as graduation shall be determined by the State Board of Examiners at the annual examination of the Board. The Board is appointed by the State Superintendent of Public Instruction from the following classes: The State Superintendent or Deputy Superintendent, who is President of the Board; the Principal of another Normal School; six county, city or borough superintendents of Pennsylvania; and the Principal of this Normal School. Each student must receive eight votes out of the

nine in order to pass the examination.* Students must be examined and recommended by the Faculty before taking the State Examination.

2. In order to be admitted to the Senior class, persons must be examined in all the Junior studies, except Methods of teaching and school management, and the examination in these branches shall be final. No substitutions or conditions shall be allowed for any of the studies required for admission to the Senior class.

3. If the faculty of any State Normal School, or the State Board of Examiners, decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examination at any other State Normal School during the same year.

4. If a person who has completed the Junior studies at any State Normal School, desires to enter another State Normal School, the Principal of the School at which the examination was held shall send the proper certificate to the Principal of the School which the person desires to attend. Except for the reason here stated, no certificate setting forth the fact of the passing of the Junior studies shall be issued.

5. Candidates for graduation shall be examined in all the branches of the Senior year. They shall have the opportunity of being examined in any of the higher branches, including vocal and instrumental music and double entry book-keeping; and all studies completed by them shall be named in their certificate.

6. A certificate setting forth the proficiency of all the applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the faculty and presented to the Board.

---

*These examinations come early in June, the date being fixed each year by the State Superintendent. The examinations are in writing and last two or three days. The Sub-Junior examination has been abandoned, and students hereafter will be examined in Preparatory and Junior branches at the end of the Junior year.

CERTIFICATES AND DIPLOMAS.

A student graduating in either Course will receive a certificate in which will be named the branches he has studied, which will entitle him to teach in the public schools of Pennsylvania for any two subsequent years without further examinations. Students completing the Regular Normal Course receive diplomas constituting their holders *Bachelors of Pedagogies*. The diplomas of those graduating in the Scientific course will enumerate the distinctive branches of this course.

Graduates who have continued their studies for *two years*, and have practiced their profession for *two annual terms*, in the Common Schools of the State, and who have presented to the Faculty and Board of Examiners a certificate of good moral character and skill in the art of Teaching from the Board or Boards of Directors in whose employ they have taught, countersigned by the proper County Superintendent, may receive diplomas, which are permanent certificates of the highest grade. *They confer upon their holders the right to teach the branches named therein in the public schools of Pennsylvania, without further examinations.* These diplomas in the Regular Normal Course constitute their holders *Master of Pedagogies.*

Applications for diplomas must be presented to the Board of Examiners at their regular session.

The Normal School law makes it the duty of the authorities of the Normal Schools to grant diplomas or State Certificates to *actual teachers in Common Schools*, without their having attended the Normal School as students. The following are the conditions upon which these diplomas will be granted:

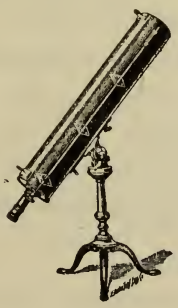
1. Each applicant must be twenty-one years of age, and of good moral character, and must have taught successfully during three successive annual terms in Common Schools in this State, the proof of age to be the declaration on honor of the applicant; and of moral character and a satisfactory discharge of the requisite terms of teaching, a certificate from the proper Board or Boards of Directors, signed by the President and Secretary, and countersigned by the proper County Superintendent or Superintendents.

2. The examinations to be in the Elementary, Regular Normal or Scientific Course, as the applicant may select, according to the list of studies as printed in the circulars of the State Normal School, and approved by the Superintendent of Public Instruction, or in such other studies as may by the Board of Examiners be deemed equivalent.

3. Any person obtaining a certificate in the Elementary Course may, at the next or any succeeding annual examination, be examined for the higher course, and obtain the proper certificate.

4. Each applicant to prepare and present to the Board of Examiners an original thesis of not less than six folio pages of manuscript, on some professional subject, to be retained at the school where the examinations take place.

5. The examinations and certificate to be without expense to the applicant, and the certificate to be full evidence of qualifications to teach the branches therein named, in any part of the State, without further examination.



GENERAL ANTHONY WAYNE'S TELESCOPE.

Presented by Isaac Wayne to the Chester County Cabinet of Natural Science in 1831. Now the property of the West Chester State Normal School.

Location, Buildings, &c.

The West Chester State Normal School was founded in the year 1871, by the joint efforts of the Trustees and contributors of the West Chester Academy, and the citizens of West Chester and vicinity.

West Chester is a beautiful town of 10,000 inhabitants, the county seat of Chester county, and is pre-eminent for its healthfulness, morality and intelligence. It is about twenty-five miles west of Philadelphia, with which it is connected by two lines of the Pennsylvania R. R. It is also connected with Philadelphia by a trolley line, over which cars run every fifteen minutes each way. A short branch road connects West Chester with the main line of the Pennsylvania Railroad at Frazer, where close connections are made with the trains on the main line, and by an electric road it is also connected with the Philadelphia and Reading R. R. at Lenape.

THE BUILDINGS

Are situated in the southern part of the borough, half a mile from the Court House. The main building is built of greenstone and marble, 256 by 234 feet, four stories high, with basement. It is one of the finest and handsomest school buildings in the country. The buildings are surrounded by forty-six acres of beautiful grounds.

A new building, containing a chapel and a dining-room has lately been completed; both are most completely and handsomely fitted up. Two new additions for sanitary purposes have also been erected, and each story, on both the girls and boys' wing, is fitted up with bath-rooms (hot and cold water), water-closets, slop-hoppers, &c., of the best pattern. The

drainage is first-class. These sanitary improvements alone cost $10,000, and are believed to be among the best and most healthful to be found anywhere. The whole building has lately been improved, the students' rooms have all been papered, refitted and refurnished, a fine library and reading room provided for the free use of students, and many other improvements made to add to the efficiency of the school, and the comfort of the students.

A first-class large passenger elevator has recently been put in and makes all the floors equally desirable. A new electric light plant supplies every part of the building with the best and safest of lights.

The Gymnasium.—A first-class gymnasium, 104 by 64 feet, with an administration building attached, 29 by 36 feet, has recently been completed. It is of stone, two stories high, is fitted up with every modern improvement, including a full supply of the best apparatus, running track, bath rooms, large swimming pool, bowling alleys, ball cage, &c. A thoroughly trained physician and his wife are in charge of the gymnasium, and all exercise is taken under their supervision. All students are given a complete physical examination, and proper exercerises prescribed for them. This gymnasium marks a great and important advance in Normal School work, and its advantages are enjoyed by all students without extra cost.

Recitation Hall.—Recently the Board of Trustees erected a new building, 185 by 80 feet, with two stories above a high basement, which is used wholly for school purposes. It has been planned with great care, and is unusually well adapted for its purpose. It is heated and ventilated by the Smead-Wills system. The total cost of the building and heating-plant has been over $60,000.

New Grounds.—The erection of so many buildings has so taken up the main campus that the Trustees have purchased adjacent grounds at various times, including the fine grounds of the Chester County Agricultural Society, until they now embrace forty-six acres, embracing enclosed grounds suitably fitted up for all outdoor games.

INFIRMARY.—A complete and well appointed school infirmary, at considerable distance from the other school buildings, has just been erected. This has been planned by skilful physicians and architects, and will not only promote the comfort and recovery of any who may be ill, but will also prevent the spread of any contagion in the school. It is believed that this was the first school of its class to take this important step. A trained nurse is employed by the school, who gives her whole time to the care of the health of the school.

The school property has now cost half a million dollars, and is the best and most complete possessed by any Normal School in this country.

STUDENTS' ROOMS.

The rooms are generally arranged for two students each. All are good sized, have high ceilings, are well ventilated, and are all thoroughly heated by direct steam radiation. The rooms are newly and comfortably furnished, have closets, single-beds, wash stands, bowls and pitchers, and are furnished with woven wire mattresses. The ladies' rooms are all partly carpeted. The buildings and grounds are lighted by the school's own electric lighting plant.

Admission, Government, &c.

CONDITIONS OF ADMISSION.

Pupils will be allowed to enter the regular course at any point for which they are actually fitted. They may enter at any time during the Session, and will be charged only from date of entrance.

A prompt attendance at the commencement of the Session is of the utmost importance, both to the progress of the pupil and proper organization of the School.

Students desiring to enter the institution should make application to the Principal at as early a date as possible. All new students must submit satisfactory testimonials of good character from their last teacher.

THE NEW MODEL SCHOOL BUILDING.

OUTFIT.

Pupils boarding in the Institution will be furnished with single beds and bedding, and are expected to furnish a pair of blankets, or an equivalent, towels, and table napkins ; also an umbrella and a pair of rubber over-shoes. All students will need gymnasium shoes, which can be got in West Chester at small expense. The young ladies of the senior and junior classes invariably provide themselves with gymnasium suits of navy blue flannel, the blouse waist of which may be made from Butterick pattern No. 9867, and the divided skirt from Butterick pattern No. 1799, and it is highly desirable that all others should have this satisfactory and inexpensive dress. Many of the boys provide carpet for their rooms, thus giving them a very neat and homelike appearance.

Keys, wash-bowls, pitchers and looking glasses, are furnished by the School, but their cost must be deposited when they are obtained, which deposit will be refunded when they are returned uninjured.

MORAL AND RELIGIOUS CULTURE.

All students are required to attend the opening exercises of the School in the chapel each day, and all must attend religious services each Sabbath morning in the town, at the churches preferred by their parents or guardians.

LABORATORIES.

The new Chemical Laboratory renders the facilities for Chemistry even more complete than ever ; the department is under the charge of a practical chemist, who has devoted years to this important branch, and who is a State Chemist of Pennsylvania. Students receive instructions without extra charge, but are required to pay for chemicals used, breakage, etc. The removal of the laboratory out the main school building has removed all the danger often apprehended from such departments. Laboratories have also been equipped with apparatus, microscopes, &c., for individual work in Physics, Botany, Physiology and Zoology.

APPARATUS.

The institution is supplied with Philosophical and Chemical Apparatus of the most approved kind, large additions having been made recently.

MODEL SCHOOL.

A new Model School building 114 by 62 feet, has just been erected at a cost of $42,000. It is a most complete and suitable building for its purpose. This is one of the public schools of West Chester. The members of the senior class observe and practice teaching here under the careful supervision of the Superintendent and teachers of West Chester. This experience in public schools of high reputation and efficiency, is an advantage to them that cannot well be overestimated.

LIBRARY AND READING ROOM.

A large library room has lately been fitted up in the best manner. It now contains libraries aggregating more than 7,000 volumes. A modern card catalogue adds greatly to their value. The library is open at all hours out of school time, with a competent librarian constantly in charge.

Connected with the library is a reading-room supplied with a hundred magazines and papers, also for the constant and free use of the school.

LITERARY SOCIETIES.

There are connected with the school two flourishing Literary Societies—the Moore Literary Society, and the Aryan Society—composed of students and members of the Faculty.

The value of these societies as adjuncts of education is so great that the students cannot afford to neglect the opportunities they furnish for literary and oratorical culture.

MUSEUM.

The Museum contains a large and valuable collection of specimens, illustrating every department of Natural Science. It was begun in the year 1826, and has been annually enriched with contributions from every portion of the world. The justly

celebrated "Herbariums" of the late Dr. William Darlington, and David Townsend, now in this Museum, are conceded to be two of the most accurate and extensive private collections ever formed in this country.

TEXT BOOKS.

Text Books are sold to students at wholesale prices; but all books used in the Elementary Course are furnished on rent to those preferring it.

This department is also in charge of a first-class teacher. The best modern methods of instruction are used both in class work and individual instruction, and the success and popularity of the department have been very marked. Private pupils in vocal music, pay the same rates as in instrumental music, and have the use of a piano to aid their practice. Class instruction in vocal music is given without extra cost.

MUSIC RECITALS

Are held every four weeks in the chapel, for the purpose of giving the pupils ease and self control in playing and singing before an audience. For these recitals a Steinway Concert Grand Piano is used.

A course of reading in musical literature is commended to cultivate the style, and enrich the pupils knowledge of the great masters.

Term :—Winter Session, two lessons per week, including two practice periods daily, $34.00. For Spring Session, $16.00. For a part of a term $1.30 per week.

For lessons on other instruments than the piano, special arrangements must be made.

APPLICATIONS FOR TEACHERS.

Frequent applications are made to the Principal for well-trained teachers, and it will be our aim to supply the demand as far as possible.

CALENDAR.

The school year is divided into two sessions. The Winter Session will begin *Monday, September 3rd*, and continue *twenty-seven weeks*. The Spring Session will begin *Monday, March 25th*, and continue *thirteen weeks*. There will be a vacation of one week at Christmas, and one of the same length between the sessions in March.

TERMS.

Tuition and board, including heat, light and washing, for the Winter Session, $135; *one-half payable in advance*, the remainder on December 3rd; for a period less than the session, per week, $5.25. For the Spring Session, $65, *payable in advance*; for a period less than a session, per week, $5.25.

For tuition alone, for Winter Session, $45, *one-half payable in advance*, the remainder on December 4th; for a period less than a session, per week, $1.70. For Spring Session, *in advance*, $20; for period less than a session, per week, $1.60.

The "State aid" of fifty cents a week is deducted from the bills of those who comply with the conditions stated *below*, making the total cost to teachers $180 per year. But this is not expected to be available for the Fall and Winter term of 1900-1.

Teachers whose schools do not end until after the beginning of the session, are charged by the week, at *term rates*, if they enter as soon as their schools close, and finish the term.

There are no extra charges except for private lessons in music and the cost of the chemicals to those studying chemistry.

DEDUCTIONS.

Students absent two consecutive weeks, or longer, on account of personal sickness, are entitled to full reduction for the time lost.

Those leaving for any other cause will be required to pay, for the time spent at the school at the rate for a period less than a session as specified above.

All bills must be settled with the Principal, who acts in behalf of the Trustees. Bills for one term must be settled before a student will be permitted to enter upon the next term, unless by special arrangement.

STATE APPROPRIATIONS TO STUDENTS AND GRADUATES.

For many years the Legislature has made the following appropriations to Normal Students and Graduates:

1. Each student *over seventeen years of age*, who shall *sign a paper*, declaring *his intention* to teach in the Common Schools of the State, shall receive the sum of FIFTY CENTS *per week* towards defraying the expenses of tuition and board.

2. Each student who *upon graduating*, shall sign an agreement to teach in the Common Schools of the State *two full school years*, shall receive the sum of FIFTY DOLLARS.

3. Any student to secure these benefits, must attend the school at least *twelve consecutive weeks*, and must join a class in Methods of Instruction or School Management. These benefits will be deducted from the regular expenses of board and tuition. These benefits will not be available in the Fall and Winter term of 1900-1, but it is hoped will be available during and after the Spring term of 1901.

VISITORS AND VISITING.

Calls on pupils at other times than during the hours of recreation, seriously interfere with the object they have in view, and therefore will not be allowed except in case of necessity. Persons desiring to visit the school are cordially invited to do so at any time.

Every absence from school duty is a loss which cannot be wholly made up. *Parents are earnestly requested not to take their children away from a single school duty, unless it is absolutely necessary. It will interfere with important school duties if a student leaves school earlier than Saturday morning or returns later than Sunday evening.* Students are not permitted to visit home or away from the town without special permission from their parents or guardians.
